

No Show Policy

Our appointment slots are limited and in high demand. If you are unable to make it to your scheduled appointment, we kindly request you to reach out to our office at least 24 hours in advance to reschedule. Early cancellation enables us to accommodate patients waiting for an appointment.

A "no-show" is when an appointment is missed without prior cancellation. Please note that three consecutive no-shows may result in dismissal from our practice.

Ensuring that our patients are reminded of their appointments is a top priority for us. Our automated reminder system will contact you a week before your appointment, either by text, email, or phone call, using the information provided by you. Please make sure that we have the correct information for these reminders and that you have not opted out of them accidentally. We find that this is one of the most common reasons for missed appointments.
